

Polyform® G Series Utility Fender

Proudly made by
The Originator of
Modern Plastic Buoys

POLYFORM® OF NORWAY

The Polyform G-3 is a supreme blow molded fender made from marine-grade soft vinyl material. These utility fenders are ribbed designed for added strength and abrasion resistance. The G series represents high-quality utility fenders for multiple usages. The fenders are of uniform color and are available in various colors.

Polyform AS

Polyform AS is a world leading manufacturer of buoys fenders and floats, and the originator of the modern inflatable plastic buoy. The company is registered in Norway and situated in Ålesund at the north-western coast of Norway, and benefits from being located in one of the world's most innovative maritime environments.

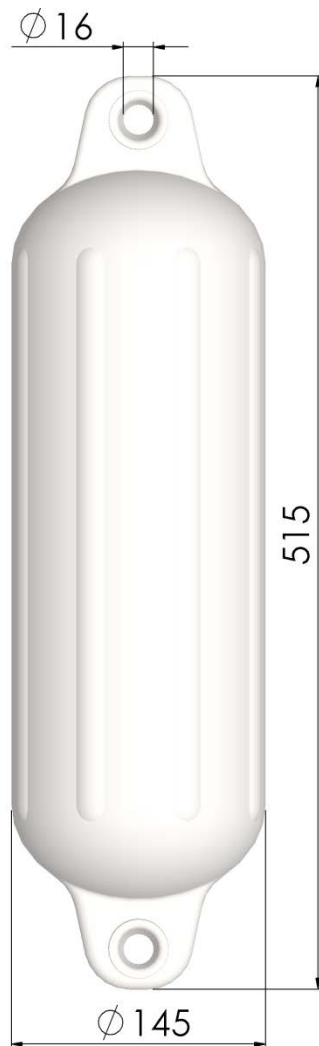

The product range of Polyform AS consists of:

- Inflatable buoys and fenders made from soft Vinyl plastics.
- Purse Seine Floats, buoys and marina fenders made from BACELL closed cell foam.
- Hard-shell buoys and pontoon floats made from PE and filled with foam

Product information

Article number	G3
Diameter (max recommended)	145 mm
Height (max)	515 mm
Weight (nominal)	0,8 Kg
Eye diameter for ropehold	16 mm
Valve type	V10
Gross Volume	6,6 L

Technical information

Hardness, shore A	73
Tensile strength	15 MPa
Elongation at break	300 %
Cold flex temperature	-33°C
Recommended max temp.	40°C
Temp. not to be exceeded	50°C
Specific gravity	1,17

V-10 all plastic
non-return valve

For all measurements, weights and other technical data specified in this data sheet, please allow for a deviation of not less than +/-5%. The illustration may deviate from the actual product.
